## UNDERPAD

With its 60x60 cm, 60x90 cm, 90x180 cm size, absorbent top layer and liquid-proof bottom layer, Medicare Underpad safely protects the user and the mattress against leaks. The product variety is divided into 3 as normal, economic and plus. Thanks to its absorbent layer and waterproof outer surface, it provides protection against accidental leaks at a moderate to low rate. It is a good protection alternative to provide patient hygiene. Medicare Underpad is suitable for sensitive skin. It provides effective protection against leaks.

## ADULT DIAPERS

High protection and comfort with Medicare Adult Diapers thanks to its tightness to the body, it offers the feeling of daily underwear and more independent movement it is suitable for both women and men. Medicare Adult Diapers are made of soft, breathable absorbent material, they offer high comfort to the skin and protection against leaks.

## ADULT PANTS

High protection and comfort with Medicare Adult Diapers thanks to its tightness to the body, it offers the feeling of daily underwear and more independent movement it is suitable for both women and men.

Medicare Adult Diapers are made of soft, breathable absorbent material, they offer high comfort to the skin and protection against leaks.

## LADY URINE PADS Light Incontinence

Medicare's specially designed for women, produced for light urinary incontinence and small urine leaks.

Qty: 30 pcs

# UNDERPAD INSTRUCTION FOR USE

Cut the products bag open with a scissor from the bottom side of the packaging. Doing so will present you a better place to hold onto the pad as you take it out of the packaging.

Take the underpad out and place it in a folded-up state, onto the surface you'll be using it on.

Unfold the pad. Take the edge of the product and unfurl it outward, away from you. Allow it to unfold completely.

Place the pad down on the surface, with the non plastic side up. The soft side absorbs the urine, while the plastic-looking side will prevent any liquid from going through and onto the surface. The person will lie down on the softer side.
